

IDC CIO Summit 2022

Saudi Arabia

IN-PERSON EVENT | September 19 - 20

 FAIRMONT HOTEL RIYADH

Nomination Form: IDC Excellence Awards 2022

Category Definition and Qualification

To compete and thrive in the new digital economy, progressive CIOs across the region are increasingly transforming their customer engagements, business operations, and operating models by leveraging digital technologies. They are being supported unequivocally by line-of-business leaders in delivering business transformation.

Through the IDC Excellence Awards 2022, IDC intends to honor those organizations and IT leaders who have conceptualized and successfully delivered digital transformation initiatives that brought about tangible results.

This year, IDC will recognize the excellence of IT and business leaders in Saudi Arabia across the following categories:

- **CISO (Chief Information Security Officer) of the Year**

Open to IT leaders who have:

- Significantly improved the security posture, resilience, and regulatory compliance of their organization.
- Successfully delivered major initiatives that helped transform and position security as an enabler for digital transformation.

- **CIO (Chief Information Officer) of the Year**

Open to IT leaders who have:

- Spearheaded the leadership of digital transformation in alignment with senior executives and lines of business.
- Successfully delivered major digital transformation initiatives that led to significant business outcomes.

- **Women in Technology & Business**

Open to female business and IT leaders who have:

- Positively impacted the business outcomes, work cultures, and levels of innovation required for greater financial performance.
- Successfully reduced the impact of a lack of gender diversity in IT organizations and underscored the need to expand mentoring programs that develop female leaders.

To be eligible for the IDC Excellence Awards 2022, nominees must fulfil the following criteria:

- They must have held the position of CIO or business leader within a company based in Saudi Arabia for at least 24 months.
- They must have led, within the last 24 months, the implementation of initiatives that must be thoroughly described in the nomination form.
- They must have demonstrated outstanding skills and efforts in the following fields: innovation, change management, IT governance, business enablement, and cost efficiency.

At IDC, we pride ourselves on enforcing the very highest levels of transparency and impartiality. As such, each nomination will be reviewed and validated using a multi-tiered process.

The evaluation of nominations and selection of finalists will be independently undertaken by a multidisciplinary team comprising senior regional and international IDC analysts. All nominations will be treated with the strictest confidence.

Upon submission of a nomination, IDC analysts will perform an initial assessment, during which they may call nominees to validate and verify details.

The top 10 finalists in each category will be unveiled during a live 'Awards Ceremony' to be hosted on a virtual platform.

The top three finalists in each category will be required to present their achievements/nominations to the IDC jury. Each finalist will be allocated a total of 15 minutes – 7-8 minutes for a PowerPoint presentation and 7-8 minutes for Q&As.

In the event of any dispute regarding the rules, conduct, results, and all other matters relating to the IDC Excellence Awards 2022, the decision of the judges shall be final, and no further correspondence or discussion shall be entered into.
